VISION& MISSION

VISION

“To be world’s most preferred vendor for all IT consulting and solutions”

MISSION

“To enable conceptualization, designing, execution and delivery of emerging technology based complex projects in the most cost effective manner under the Innovative Solutions Framework”

@Copyright 2019 – All rights reserved I Product of ISF Analytica and Informatica Pvt. Ltd

INTRODUCTION

What is Innovative Solution Framework ?

- ✓ ISF, as an organization, understood the need and services towards meeting the right requirement of today's SMEs.
- ✓ ISF looks into the financial services segment and targets the SME's/ enterprise for end-to end services for its own business & growth.

@Copyright 2019 – All rights reserved I Product of ISF Analytica and Informatica Pvt. Ltd

ISF Analytica & Informatica

AREAS WE CATER TO …

Consulting …

We offer clients with a full range of services – from creative design and development to Software Development to Business & Knowledge Processing. We seek to offer the very best solution in each category.

Solutioning …

ISF Informatica aims at giving start-to-end solutions for sector agnostic business so long as it is feasible and can be implemented. The aim is to give solutions that cover a strong ideation phase followed by incubation and finally production.

Product Development …

We have over the last few years developed in-house certain products in the startup, exchange, market-place, agriculture and real estate sector which is marketed as white-label. Based on the Solutioning done, we rather than building from scratch, use our white-labels to meet client requirements and help in necessary customization as required.

@Copyright 2019 – All rights reserved I Product of ISF Analytica and Informatica Pvt. Ltd

ISF Analytica & Informatica

CONSULTING

ISF provides consulting services in areas of design thinking and software development. We have a team of expert, technical as well as subject matter, who are willing to deliver their expertise as per the client requirements.

Design Thinking

Design Thinking is the process of defining the components, modules, interfaces, and data for a system to satisfy specified requirements.

Web & Application Development

Development is the process of creating or altering systems, along with the processes, practices, models, and methodologies used to develop them.

Technology Consulting in the following area:-

- ✓ Blockchain Development
- ✓ Artificial Intelligence Development
- ✓ Cloud Implementation
- ✓ M2M (Machine to Machine) and IOT

@Copyright 2019 – All rights reserved I Product of ISF Analytica and Informatica Pvt. Ltd

SOLUTIONING

ISF Informatica aims at giving start-to-end solutions for sector agnostic business so long as it is feasible and can be implemented. The aim is to give solutions that cover a strong ideation phase followed by incubation and finally production.

Start-up Academy Program

In today's competitive business world it is imperative that you should not only have a great idea but at the same time be able to systematically convert them into real product or service, that is run under the watchful eyes of mentors. We at ISF, not only provide start-ups' with world class facilities but also get the best of the mentors who get involved right from the design thinking phase.

Incubation Program

ISF actively support ideas that
offer solution to existing problem or address a need. We believe in making changes at grass-root level. We devilishly focus on detailing the finer aspects. We quantify, analyze and deliver solutions that are constantly measured and improved.

Fund Raising Program

ISF always would like to see successful business and not just a successful project. To get into a full scale business requires funds at different level. The seed fund can no longer drive a full scale business and here is where ISF with its investor network steps in. It becomes a platform for all start-ups' to promote their project to potential investors and try to close funding deals.

KYC TOOL
FortiMates

Purpose

FortiMates is a product of ISF Analytica & Informatica. A secure mailing system which verifies its users and avoids spammers and threats to your Email Account.

Security has been a major issue since E-mail ID is used for registration on various platforms. Email-Ids are linked to Bank Accounts, Social Security Passwords, Net Banking which involves Money and any cyber theft through such accounts will lead to unbearable losses.

FortiMates is an approach to secure one's identity by providing double level verification system of both fingerprint Scan and face recognition powered by AI which validates the user's account and thus avoid misuse of identity & fraudulent mails.

Fraudulent mails are reduced as FortiMates checks the content of the mail using AI technology.

Educational Suit
Easy Comm (Community)

Purpose

ISF brings together features of two of its strong product namely, **Fortimates** & **MentorBox** into **EasyComm – The "Secured Community" Portal.**

To provide secured communication for various stakeholders

- Colleges & Universities conducting education
- Government departments conduction confidential meetings
- Companies conducting review meetings & discussions

✓**EasyComm** verifies the origin of the sender through a QR code which display the sender's identity to the receiver. The receiver can know the sender's details as long as he is a registered and verified user. This creates a legally binding obligation.

✓After registration on our web site (**EasyComm**) one can send a verified email from our site.

✓The e-mail will include a face recognition, that can be flashed in order to receive information about the sender.

✓The message will show the time and country of origin of the message that was sent from.

✓In order to learn more about the sender, user must become a client.

✓Once he becomes a client, he will immediately have access to the identity of the sender.

AGRICULTURE SUITE
AgriExchange

Purpose

The need of an agriculture exchange stems from the need to invest in human beings basic need of survival; food, clothing and shelter.
Maslow's representation of need makes this venture important.
An exchange which began from a barter system has been now translated into the need to have an agriculture exchange where the stakeholders are the producers (agriculturist, farmers) and the investors apart from the distributors, wholesalers and retailers.

AGRICULTURE SUITE
Vegetable Composter

Purpose

We generate 21.5 million tons of food waste each year. If composted, it would reduce the same amount of greenhouse gas as taking 2 million cars off the road. The EPA estimates that 75% of the American waste stream is recyclable, but we only recycle about 30% of it. The urban municipal solid waste management market in India is expected to be worth USD 1.5 billion by 2017. Waste management CAGR today = 16% Not only food. Every year, approximately 800,000 tons of waste flowers are dumped into Indian rivers.

Intent is to create a clean, odor-free, environmentally friendly manner way for small apartments to compost food waste and provide a source of compost for city gardeners who live in apartments with small balconies or gardens. It should be user and environment friendly, compact, hygienic, affordable organic waste composter for homes.
