## MentorBox

MentorBox is a shrewdly crafted application with a set of connected plugins that enable its users to get the mentoring process done at ease.

All the plugins chosen to build the application has a direct co-relationship to each other's input to output respectively. The plugins associated with this application aims at seamless management of the mentoring process.

### A TOOL FOR EVERYONE

MentorBox allows users to get mentored as a company or as a learning group.

## FEATURES

**The Dashboard** of MentorBox allows users to get mentored as a company or as a learning group.

MentorBox is protected by a **Secure Login** which makes sure your data is only shared with people authorized by the admin.

**Whiteboard** is a plug-in that enables online team collaboration to be used for brainstorming, tutoring for education/ discussion, collaborate to share blueprints, strategic plans, system drawings in real time.

The whiteboard can be saved as an image into a pdf file and can be shared across the team.

**Document Manager** allows the user to create different documents that are going to be consumed by the team/project. Each file gives information about its author when it was created and other file credentials.

**Video Conferencing** is a plug-in like any other video conferencing tool that enables people to the conference and creates a dedicated/ locked room with a flexible layout.

**The File Manager** allows the users of the team to organize the files created in the process to store it on the server so that it can be downloaded later on for reference or otherwise.

## NEXT STEPS

The MentorBox ultimately produces a good amount of knowledge imparted by the mentor to the users. There is a huge amount of information created through **NotesBuddy** and it is refined by **MentorBox**.

In the next stage i.e. the **PitchDeck**, the users start ripping the benefits of the products by creating a well-defined pitch deck and fundraising from investors.
